see pp 117-120

THIS INSIDE VIEW of a pioneer coke oven
Herald Sun 29 Feb 1976
early Irontown, located west of Cedar
shows the hand-shaped stone and
that went into construction of the
unit. The Irontown Iron
established in 1868 & 19
organized in 1868 & 19

Iron Making started in
Utah in 1852 in
Iron Co

and international clinical trials have been conducted involving more than 1.5 million prescriptions have been written since October 1989.

As the only available acid-pump inhibitor, PRLOSEC represented a major advance in the treatment of severe erosive esophagitis and poorly responsive symptomatic GERD. Now PRLOSEC is available in convenient once-daily dosing.

I sincerely hope that you will consider prescribing PRLOSEC for your patients with severe erosive esophagitis and poorly responsive symptomatic GERD. Now PRLOSEC is available in convenient once-daily dosing.

Before prescribing PRLOSEC, please see the accompanying Prescribing Information, including the complete and rapid healing, complete and rapid relief of symptoms, and the conditions, dosages, and contraindications.

WARNING: Accordingly, PRLOSEC should be used only for the conditions, dosages, and contraindications specified in the Prescribing Information.

I thank you in advance for considering PRLOSEC.
